

**NSPCC
online**

safety hub

The NSPCC safety hub is organised by topic and holds lots of information and advice for parents and carers including [social media](#), [online gaming](#) and [parental controls](#).

The safety hub can also help with more difficult conversations around [sharing nudes](#), [inappropriate content](#) and [online reporting](#).

First Phone

Childnet have put together several videos and information guides to help have conversations about choosing a phone for your child.

Highfields Primary School Online Safety Newsletter

SEPTEMBER 2022

LIVE STREAMING

In a recent survey carried out by Ofcom, it was reported that six in ten children aged 3-17 (57%) used live streaming platforms to watch online content. A much lower proportion of children streamed their own videos in real time for others to watch (15%). The research found that the platforms used most to watch live streams were YouTube and TikTok. *(Data source: Ofcom Children and Parent: media use and attitudes report 2022)*

The NSPCC has published guidance to help parents/carers understand some of the risks associated with both live streaming and watching live stream channels. Once content has been livestreamed, there is the risk that videos are saved and re shared without permission. Its possible for strangers to make contact with a child about their livestreamed content and start a grooming process. The guidance gives an overview of some of the features that help reduce risk for children.

Follow the link for more advice: <https://www.nspcc.org.uk/keeping-children-safe/online-safety/livestreaming-online-video-apps>

eSafetyTraining
'The 2 Johns'

This follows on from the hard hitting and informative talk from the 2 Johns who visited the school back in June.

If you missed the evening or want to find out more information, follow the link to their website for guides and advice. <https://esafetytraining.org/resources/parents-carers-area/>

Learning Times Tables?

10 Minutes a Day Times Tables by DK is an Apple app (works best on an iPad) and provides a fun way to learn timestables! Made for ages 6–8, your child will practice their timestables whilst racing against another car.
